Product Information

| Article No. 514 C2/N and 514 D/N Aluminium Oxide Paper  | | | | | | | | | | |
|---|---|---------------------------|-----------------------------|---------------------------|-----------------------------|----------------|----------|-------|----------|-------|
| Base Stock | Flexible C- and robust D-weight latex paper, tear resistant | | | | | | | | | |
| Bonding | 514 C2: Special resin with stearate top coat free of any contaminating substances affecting the blending of the lacquer. 514 D: Special resin. | | | | | | | | | |
| Grain Type | Aluminium oxide | | | | | | | | | |
| Coating | Very open coat | | | | | | | | | |
| Grain Size | 514 C2: P 800 - P 150 514 D: P 120 - P 60, P 40 | | | | | | | | | |
| Manufactured Width | 1650 mm | | | | | | | | | |
| Availability | Velcro discs, without and with holes for sanding machines with dust extraction, sheets, cut sheets, rolls and foam rolls. | | | | | | | | | |
| Market Segment | Automotive industry - vehicle manufacture and repair. Dry sanding of electrocoat, primer and subsequent paint finish. | | | | | | | | | |
| Advantages | <ul style="list-style-type: none"> The dust-repellent additive incorporated as top coat prevents premature clogging of the grain surface. Unlike conventional stearate coating this repellent effect is maintained throughout the product life. Full resinoid bonding ensures excellent performance and durability. It is best suited for grinding new generation water based lacquers. High durability, low clogging of the grain surface because of a 21-hole disc system in our form 598. Best results will be achieved with the appropriate back-up pad also available from Starcke. | | | | | | | | | |
