- Ethanol based formula

USAGE

Interior

COVERAGE

1 Litre

8-16 m²

APPLICATION

Brush or cloth

DRYING TIME

Minimum
6 hours

TOOL CLEANING

Methylated
Spirit

Product use

Liberon Spirit Wood Dye is an ethanol based dye suitable for use on new and reclaimed timbers and may be over coated with wax, oil or varnish. It may also be used to tint French Polish.

Preparation

Ensure the surface is clean, dry and free from any existing finishes, wax, oil or grease etc. Sand thoroughly and remove any dust.

Application

Shake well before use. If more than one tin of dye is required to complete the work mix the tins together to ensure a uniform colour. Apply one liberal coat of Spirit Wood Dye with a brush or cloth, working with the grain wherever possible, allow the stain to penetrate, then remove the excess with a clean cotton cloth. For a stronger colour, apply a second coat after 4 hours. When dry, Liberon Spirit Wood Dye may be finished with a water-based varnish, wax, oil or French Polish.

Precautions

- Make sure you have sufficient dye to finish the work. If more than one tin is required, mix the contents together in a clean container to ensure a uniform colour.
- Do not mix spirit based dyes with water based dyes
- Do not mix with white spirit based dyes
- Caution must be taken when using French polish and Shellac base sealers as over brushing may remove the stain.
- Application of a second coat may lift the first coat.
- Caution must be taken when using oil based finishes over Liberon Spirit Wood Dye. Keep brush strokes to a minimum as over brushing may lift out the colour.

Important: Always test product on a spare surface or inconspicuous area for colour, compatibility and end result. Different types of wood produce different results. The colour bar may not be a true representation of the actual colour.

Colours

Ebony, Georgian Mahogany, Light Oak, Medium Oak, Dark Oak, Antique Pine, Teak and Walnut.

Packaging

Liberon Spirit Wood Dye is available in 250 ml, 1 L and 5 L containers.

**Health and Safety**

Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Keep out of the reach of children. Keep away from sources of ignition – No smoking. Do not empty into drains. Wear suitable protective clothing and gloves. Use only in well ventilated areas.
