

WOOD FINISHES DIRECT

The following Safety Datasheet is provided by **Morrells**

Wood Finishes Direct cannot be held liable for the information contained within this document.

For purchasing information visit:
[Morrells 280 Pre-Catalyst Lacquer](#)

Product Data Sheet

9*03/280 Range: Precatalyst Lacquers (981/XXX – 986/XXX Tinted Precatalyst Lacquers)

Code	Description	Code	Description
9901/280	90% Sheen	9203/280	20% Sheen
9503/280	50% Sheen	9103/280	10% Sheen
9403/280	40% Sheen	Basecoat	9004/280
9303/280	30% Sheen	Thinners	2007/000

Technical Data	A high solids Precatalyst system formulated to give a fuller finish with fewer coats and prevent aeration on deep-grained timbers such as crown-cut mahogany. This range utilises silica for sheen reduction and as a consequence can be used either over the recommended basecoat or coat-on-coat. This Range can also be used over 9004/250 High Solids Basecoat.
Properties	Meets the requirements of BS (FIRA Std) 6250 for horizontal surfaces (excluding kitchen worktops) in General Use.
Mixing Guidelines	Supplied ready for use (RFU) but can be thinned up to 5% by volume with the recommended thinner, 2007/000, if required.
Typical Handling	Touch Dry: 8 – 10 minutes @ 18°C Sandable: 30 minutes @ 18°C. Use 320 or finer Silicone Carbide paper. Recoat: 30 minutes minimum @ 18°C Packing Time: Overnight minimum, dependent on conditions.
Cleaning	2007/100 should be used for cleaning equipment.
Coverage	Approximately 40m ² per 5Lts dependent upon the size, orientation and surface quality of the item being coated.
Tinting	Use Morrells Light Fast Stains up to a maximum of 5%. Bespoke tints can be matched on request.
System Guidelines	Morrells recommends the following guidance for use of this product range: Typical Finish: 1-3 coats at 75g/m² per coat (Dry Film Thickness ~ 23µ per coat) coat on coat or over Morrells recommended basecoat/sealers. Using these products in systems outside these guidelines can lead to immediate and latent problems with the integrity of the finish.
Important Information	➤ Designed for spray application. ➤ Use only the recommended thinner. Use of non-recommended thinner can cause uneven/patchy drying ➤ Leave adequate time between coats. Do not apply more than 3 coats in one day. Denib between coats to aid adhesion.

For further technical information contact our Technical Support Team on 0161 406 5300

This information is provided in good faith and without prejudice

	➤ Excessive coating weights can lead to cracking or lifting. ➤ Do not overcoat with 1K or 2K Polyurethane (PU) products. ➤ This range is not suitable for 'pulling over'. ➤ Use 2007/200 Anti-Chill Thinners when applying in conditions of high atmospheric humidity, using a maximum of 5% by volume. ➤ Use 2007/201 Retarder Thinners to slow down the drying in warm conditions, using a maximum of 5% by volume. ➤ Product should be stored above 5°C and protected from frost. ➤ Optimum application is achieved between 18°C and 22°C with good air movement and ventilation. ➤ Finished products should not be subjected to environments with temperatures of < 2°C. ➤ Out of scope with 2004/42/EC.
Health & Safety	Reference should be made to the appropriate MSDS for this product range, which can be found at www.morrells.co.uk The use of appropriate personal protection equipment (PPE) is recommended. These products are intended for professional use only.

For further technical information contact our Technical Support Team on 0161 406 5300

This information is provided in good faith and without prejudice

SAFETY DATA SHEET

9901/280 Range of Precatalyst lacquer

1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

PRODUCT NAME 9901/280 Range of Precatalyst lacquer

PRODUCT NO. 10% to 90% Sheen

APPLICATION Industrial wood coating.

2 HAZARDS IDENTIFICATION

Highly flammable. Harmful by inhalation, in contact with skin and if swallowed. Repeated exposure may cause skin dryness or cracking. Irritating to eyes. Harmful: possible risk of irreversible effects through inhalation, in contact with skin and if swallowed.

This product does not contain any PBT or vPvB Substances.

CLASSIFICATION (1999/45) Xn;R20/21/22, R68/20/21/22. Xi;R36. F;R11. R66.

PHYSICAL AND CHEMICAL HAZARDS

The product is highly flammable, and explosive vapours/air mixtures may be formed even at normal room temperatures.

HUMAN HEALTH

In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea.

4 FIRST-AID MEASURES

GENERAL INFORMATION

NOTE! Keep affected person away from heat, sparks and flames! Move the exposed person to fresh air at once. Get medical attention if any discomfort continues.

INHALATION

Move the exposed person to fresh air at once. For breathing difficulties oxygen may be necessary. If breathing stops, provide artificial respiration. Keep the affected person warm and at rest. Get prompt medical attention.

9901/280 Range of Precatalyst lacquer**INGESTION**

DO NOT INDUCE VOMITING! Remove victim immediately from source of exposure. Rinse mouth thoroughly. Provide rest, warmth and fresh air. Get medical attention immediately! If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

SKIN CONTACT

Remove affected person from source of contamination. Remove contaminated clothing. Wash the skin immediately with soap and water. Get medical attention if irritation persists after washing.

EYE CONTACT

Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes. Contact physician if irritation persists.

5 FIRE-FIGHTING MEASURES**EXTINGUISHING MEDIA**

Fire can be extinguished using: Foam. Dry chemicals, sand, dolomite etc.

SPECIAL FIRE FIGHTING PROCEDURES

Avoid breathing fire vapours. Cool containers exposed to flames with water until well after the fire is out. Keep run-off water out of sewers and water sources. Dike for water control.

6 ACCIDENTAL RELEASE MEASURES**SPILL CLEAN UP METHODS**

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Clean-up personnel should use respiratory and/or liquid contact protection. Absorb in vermiculite, dry sand or earth and place into containers.

7 HANDLING AND STORAGE**USAGE PRECAUTIONS**

Avoid spilling, skin and eye contact. Keep away from heat, sparks and open flame. Ventilate well, avoid breathing vapours. Use approved respirator if air contamination is above accepted level. Use explosion proof electric equipment.

STORAGE PRECAUTIONS

Flammable/combustible - Keep away from oxidisers, heat and flames. Store in tightly closed original container in a dry, cool and well-ventilated place. Keep in original container.

STORAGE CLASS

Flammable liquid storage.

WEL = Workplace Exposure Limit.

INGREDIENT COMMENTS

WEL = Workplace Exposure Limits

PROTECTIVE EQUIPMENT

9901/280 Range of Precatalyst lacquer**ENGINEERING MEASURES**

Provide adequate general and local exhaust ventilation.

RESPIRATORY EQUIPMENT

Respiratory protection must be used if air contamination exceeds acceptable level.

HAND PROTECTION

Use protective gloves.

EYE PROTECTION

Use approved safety goggles or face shield.

OTHER PROTECTION

Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact.

HYGIENE MEASURES

DO NOT SMOKE IN WORK AREA! Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly with soap & water if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke.

9 PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE	Liquid
COLOUR	Colourless to pale yellow
BOILING POINT (°C)	92
FLASH POINT (°C)	11
VOLATILE ORGANIC COMPOUND (VOC)	645 to 655 g/litre

10 STABILITY AND REACTIVITY**STABILITY**

Stable under normal temperature conditions.

CONDITIONS TO AVOID

Avoid heat. Avoid contact with oxidisers or reducing agents.

HAZARDOUS DECOMPOSITION PRODUCTS

Fire creates: Toxic gases/vapours/fumes of: Carbon monoxide (CO). Carbon dioxide (CO₂).

11 TOXICOLOGICAL INFORMATION**GENERAL INFORMATION**

Prolonged and repeated contact with solvents over a long period may lead to permanent health problems.

INHALATION

Vapours may cause headache, fatigue, dizziness and nausea. Vapour may irritate respiratory system or lungs.

INGESTION

Harmful: may cause lung damage if swallowed. Pneumonia may be the result if vomited material containing solvents reaches the lungs. Narcotic effect.

SKIN CONTACT

Acts as a defatting agent on skin. May cause cracking of skin, and eczema. Prolonged or repeated exposure may cause severe irritation.

EYE CONTACT

Irritating to eyes. Vapour or spray may cause temporary (reversible) eye damage.

ROUTE OF ENTRY

Inhalation. Ingestion. Skin and/or eye contact.

TARGET ORGANS

Respiratory system, lungs

MEDICAL SYMPTOMS

High concentrations of vapours may irritate respiratory system and lead to headache, fatigue, nausea and vomiting.

12 ECOLOGICAL INFORMATION**ECOTOXICITY**

The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

9901/280 Range of Precatalyst lacquer

13 DISPOSAL CONSIDERATIONS

DISPOSAL METHODS

Dispose of waste and residues in accordance with local authority requirements.

Product Data Sheet

2007/ Range: Thinners, Retarders & Pullovers

Code	Description	Code	Description
2007/000	Cellulose Thinners	2007/300	Medium Pullover
2007/100	Gun Cleaner	2007/301	Strong Pullover
2007/200	Anti-Chill Thinners	2007/900	Hydrocarbon Free Thinners
2007/201	Retarder		

Technical Data	A range of quality thinners formulated with 'virgin' solvents and with no addition of recycled solvents. Each type is specifically designed so as not to adversely affect the solvent balance of the product ranges it can be used with.
2007/000	A blend of esters, hydrocarbons and alcohols designed for optimum viscosity reduction of Nitrocellulose and Precatalyst sealers and topcoats.
2007/100	A blend of solvents designed to offer the most effective 'dissolving' action to remove dried lacquer residues from spray guns and other finishing equipment. This product should not be used to 'thin' lacquers as it's combined evaporation rate is much too fast, and will lead to patchy drying and potential cracking of the film.
2007/200	A blend of mild solvents designed to overcome the effects of chilling when lacquers are applied in conditions of low ambient temperatures or high atmospheric humidity.
2007/201	A blend of slow-evaporating solvents designed to keep the surface of the film 'open' a little longer than normal to help improve flow and leveling when applied in warm conditions. Too much airflow over the coated surface can also cause the need for an addition of Retarder.
2007/300	A medium solvency blend formulated for the 'pulling over' of nitrocellulose and some precatalyst finishes.
2007/301	A stronger version of 2007/300.
2007/900	A special thinner for the 9901/289 Range avoiding the use of aromatic hydrocarbons. Can also be used to thin other recommended systems (refer to specific product data sheets).
Important Information	➤ The use of inappropriate thinners can lead to cracking, lifting and whitening of the lacquer film. ➤ Use of non-recommended thinner can cause uneven/patchy drying. ➤ As most our product range is supplied 'ready for use' we recommend that no more than 5% by volume of any of these thinners should be added. For in-depth technical advice on either optimum thinning or the use of 'pullovers' please contact our Technical Support Department. ➤ Optimum application is achieved between 18°C and 22°C with good air movement and ventilation.

For further technical information contact our Technical Support Team on 0161 406 5300

This information is provided in good faith and without prejudice

	➤ Users should prepare a test panel prior to commencement and satisfy themselves that the specific system provides the appearance and level of performance appropriate for the end-use. ➤ Product should be stored above 5°C and protected from frost. ➤ Finished products should not be subjected to environments with temperatures of < 2°C. ➤ Out of scope with 2004/42/EC.
Health & Safety	Reference should be made to the appropriate MSDS for this product range, which can be found at www.morrells.co.uk The use of appropriate personal protection equipment (PPE) is recommended. These products are intended for professional use only.

For further technical information contact our Technical Support Team on 0161 406 5300

This information is provided in good faith and without prejudice

4 FIRST-AID MEASURES

GENERAL INFORMATION

NOTE! Keep affected person away from heat, sparks and flames! Move the exposed person to fresh air at once. Get medical attention if any discomfort continues.

INHALATION

Move the exposed person to fresh air at once. For breathing difficulties oxygen may be necessary. If breathing stops, provide artificial respiration. Keep the affected person warm and at rest. Get prompt medical attention.

INGESTION

DO NOT INDUCE VOMITING! Remove victim immediately from source of exposure. Rinse mouth thoroughly. Provide rest, warmth and fresh air. Get medical attention immediately! If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

SKIN CONTACT

Remove affected person from source of contamination. Remove contaminated clothing. Wash the skin immediately with soap and water. Get medical attention if irritation persists after washing.

EYE CONTACT

Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes. Contact physician if irritation persists.

2007/000 CELLULOSE THINNERS

5 FIRE-FIGHTING MEASURES**EXTINGUISHING MEDIA**

Fire can be extinguished using: Foam. Dry chemicals, sand, dolomite etc.

SPECIAL FIRE FIGHTING PROCEDURES

Avoid breathing fire vapours. Cool containers exposed to flames with water until well after the fire is out. Keep run-off water out of sewers and water sources. Dike for water control.

6 ACCIDENTAL RELEASE MEASURES**SPILL CLEAN UP METHODS**

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Clean-up personnel should use respiratory and/or liquid contact protection. Absorb in vermiculite, dry sand or earth and place into containers.

7 HANDLING AND STORAGE**USAGE PRECAUTIONS**

Avoid spilling, skin and eye contact. Keep away from heat, sparks and open flame. Ventilate well, avoid breathing vapours. Use approved respirator if air contamination is above accepted level. Use explosion proof electric equipment.

STORAGE PRECAUTIONS

Flammable/combustible - Keep away from oxidisers, heat and flames. Store in tightly closed original container in a dry, cool and well-ventilated place. Keep in original container.

STORAGE CLASS

Flammable liquid storage.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Name	STD	TWA - 8 Hrs		STEL - 15 Min		Notes
ACETONE	WEL	500 ppm	1210 mg/m3	1500 ppm	3620 mg/m3	
BUTANOL-norm	WEL			50 ppm(Sk)	154 mg/m3(Sk)	
BUTYL ACETATE -norm	WEL	150 ppm	724 mg/m3	200 ppm	966 mg/m3	
PROPAN-1-OL	WEL	200 ppm(Sk)	500 mg/m3(Sk)	250 ppm(Sk)	625 mg/m3(Sk)	
TOLUENE	WEL	50 ppm(Sk)	191 mg/m3(Sk)	150 ppm(Sk)	574 mg/m3(Sk)	

WEL = Workplace Exposure Limit.

INGREDIENT COMMENTS

WEL = Workplace Exposure Limits

PROTECTIVE EQUIPMENT**ENGINEERING MEASURES**

Provide adequate general and local exhaust ventilation.

RESPIRATORY EQUIPMENT

Respiratory protection must be used if air contamination exceeds acceptable level.

HAND PROTECTION

Use protective gloves.

EYE PROTECTION

Use approved safety goggles or face shield.

OTHER PROTECTION

Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact.

2007/000 CELLULOSE THINNERS**HYGIENE MEASURES**

DO NOT SMOKE IN WORK AREA! Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly with soap & water if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke.

9 PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE	Liquid
ODOUR	Characteristic
BOILING POINT (°C)	97
FLASH POINT (°C)	6
VOLATILE ORGANIC COMPOUND (VOC)	857 g/litre

10 STABILITY AND REACTIVITY**STABILITY**

Stable under normal temperature conditions.

CONDITIONS TO AVOID

Avoid heat. Avoid contact with oxidisers or reducing agents.

HAZARDOUS DECOMPOSITION PRODUCTS

Fire creates: Toxic gases/vapours/fumes of: Carbon monoxide (CO). Carbon dioxide (CO₂).

11 TOXICOLOGICAL INFORMATION**GENERAL INFORMATION**

Prolonged and repeated contact with solvents over a long period may lead to permanent health problems.

INHALATION

Vapours may cause headache, fatigue, dizziness and nausea. Vapour may irritate respiratory system or lungs.

INGESTION

Harmful: may cause lung damage if swallowed. Pneumonia may be the result if vomited material containing solvents reaches the lungs. Narcotic effect.

SKIN CONTACT

Acts as a defatting agent on skin. May cause cracking of skin, and eczema. Prolonged or repeated exposure may cause severe irritation.

EYE CONTACT

Irritating to eyes. Vapour or spray may cause temporary (reversible) eye damage.

ROUTE OF ENTRY

Inhalation. Ingestion. Skin and/or eye contact.

TARGET ORGANS

Respiratory system, lungs

MEDICAL SYMPTOMS

High concentrations of vapours may irritate respiratory system and lead to headache, fatigue, nausea and vomiting.

12 ECOLOGICAL INFORMATION**ECOTOXICITY**

There are no data on the ecotoxicity of this product.

13 DISPOSAL CONSIDERATIONS**DISPOSAL METHODS**

Dispose of waste and residues in accordance with local authority requirements.

14 TRANSPORT INFORMATION

2007/000 CELLULOSE THINNERS

Proper Shipping Name	PAINT OR PAINT RELATED PRODUCTS
ENVIRONMENTALLY HAZARDOUS SUBSTANCE/MARINE POLLUTANT	No.
UN NO. ROAD	1263
ADR CLASS NO.	3
ADR CLASS	Class 3: Flammable liquids.
ADR PACK GROUP	II
TUNNEL RESTRICTION CODE	(D/E)
ADR LABEL NO.	3

15 REGULATORY INFORMATION

LABELLING

Harmful

Highly Flammable

CONTAINS TOLUENE

RISK PHRASES

R11	Highly flammable.
R38	Irritating to skin.
R41	Risk of serious damage to eyes.
R48/20	Harmful: danger of serious damage to health by prolonged exposure through inhalation.
R63	Possible risk of harm to the unborn child.
R65	Harmful: may cause lung damage if swallowed.
R67	Vapours may cause drowsiness and dizziness.

SAFETY PHRASES

S9	Keep container in a well-ventilated place.
S16	Keep away from sources of ignition - No smoking.
S24/25	Avoid contact with skin and eyes.
S26	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S36/37/39	Wear suitable protective clothing, gloves and eye/face protection.
S51	Use only in well-ventilated areas.

STATUTORY INSTRUMENTS

The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (S.I 2009 No. 716). Control of Substances Hazardous to Health.

APPROVED CODE OF PRACTICE

Classification and Labelling of Substances and Preparations Dangerous for Supply.

GUIDANCE NOTES

Workplace Exposure Limits EH40. Introduction to Local Exhaust Ventilation HS(G)37. CHIP for everyone HSG(108).

16 OTHER INFORMATION

REVISION DATE	23/06/2011
REV. NO./REPL. SDS GENERATED	1

2007/000 CELLULOSE THINNERS

RISK PHRASES IN FULL

R10	Flammable.
R11	Highly flammable.
R22	Harmful if swallowed.
R36	Irritating to eyes.
R37/38	Irritating to respiratory system and skin.
R38	Irritating to skin.
R41	Risk of serious damage to eyes.
R48/20	Harmful: danger of serious damage to health by prolonged exposure through inhalation.
R63	Possible risk of harm to the unborn child.
R65	Harmful: may cause lung damage if swallowed.
R66	Repeated exposure may cause skin dryness or cracking.
R67	Vapours may cause drowsiness and dizziness.
