Effectively removes algae, moss & mould

Ronseal High Performance Decking Cleaner is a fast and effective way to clean and restore your deck – simply dissolve the capsules into water and apply.

Our high performance formula kills algae, moss and mould while cleaning the surface of your deck. It can also be used as an algacide removing unsightly green residues without needing to scrub.

Usage Areas	Any decking timber, bare or coated. Decking Cleaner may remove partially deteriorated or flaking coatings.
Coverage	Once diluted 5 litres will treat approx 20-24m ² .

Wise Precautions

Contains: Alkyldimethylbenzyl ammonium chloride (C12-C14). Harmful if swallowed. Risk of serious damage to eyes. Very toxic to aquatic organisms. Keep out of reach of children. Keep away from food, drink and animal feedstuffs. Do not breathe vapour/spray. Avoid contact with skin and eyes. In case of contact with eyes rinse immediately with plenty of water and seek medical advice. Do not empty into drains, dispose of this material and its container to a hazardous or special waste collection point. After contact with skin, wash immediately with plenty of water. In case of insufficient ventilation, wear suitable respiratory equipment. Wear eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show label where possible). If swallowed seek medical advice immediately and show this container or label.

This product contains amongst other ingredients more than 10% non ionic surfactant.

This product is a 125 times concentrate of PCS 95974.

Preparation

Remove any debris including leaves, twigs, soil, weeds and large amounts of moss and mould using a stiff brush. Do not wet your deck.

Application

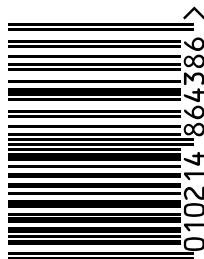

1. Remove the capsules from the outer packaging. Cut the inner case to remove the capsules. Be careful not to pierce them if you use scissors.
2. Place one capsule into 2.5 litres of warm water or two capsules into 5 litres of warm water (warm water will allow the capsules to dissolve more quickly).
3. Stir and leave the capsules to dissolve for 90 seconds. If you use cold water this could take up to 3 minutes.
4. **To use as an algacide:** once diluted, simply apply to the area needing to be treated and allow to dry using a watering can, Ronseal Sprayer or a brush. After 2-3 days any green appearance will have disappeared. Brush away any remaining dusty deposits. Your deck will resist algal re-growth for some time.
5. **To use as a moss and mould cleaner:** apply the cleaner with a watering can, Ronseal Sprayer or a brush. Scrub the deck well with a stiff bristle brush and leave for 10-15 minutes. Re-scrub the surface and then wash off with a brush and water or hose down ensuring all residues are washed away.

2 x 20ml capsules e
